Step 6: Self-Identify

There are three steps for self-identifying. It is required at the University of Minnesota to ask for this information, but it is optional for you to provide it.

The first page is to identify, if you wish, whether or not you have a disability.
The second step is to identify whether or not you have a veteran status.
The third step is diversity information.

You will have the opportunity to provide your gender, ethnicity, and race. You may also choose to decline providing your details by clicking the “I decline to answer” checkbox.

Click “Next” to move to the final step in the application process.
