Step 7: Review/Submit

The last step of the application process allows you to review your information and make changes as necessary. You can click on each section to expand and view the information. Each section has a “Modify” button which will navigate you to that step to correct the data. You may also select the step from the left-hand navigation panel.

When you are finished reviewing, click the “Submit” button. You will receive a confirmation that your application has been submitted.
